

Personal comfort has never been available in quite so many choices and now includes soft, gentle curves – a new comfort experience. There are more arrangement possibilities with Concerto than you can imagine. You start with the choice of component parts, straight or curves, all with the unique, steel frame, HR foam with feather overlay in seats and feather/down in back cushions.

You decide how wide and how deep you want the seating to be. You choose the arms and back cushions and now Concerto has new curve sections. Your Concerto sofa design can curve gently around the room providing inclusive comfort while creating a superb visual effect. Each curve section seats two people in comfort. A unique headrest design provides added personal comfort that is easily adjusted or removed.

Concerto's curves and straights – the choice is yours – and then you decide on the finish you want from King Furniture's wonderful range of quality fabrics and luxurious leathers.

Then when you've decided, King Furniture will make your special Concerto just for you.

All this is made possible because each Concerto is built around a unique steel frame. And, every Concerto comes with the King Furniture 15 year steel frame guarantee.

When your Concerto arrives you can arrange it to suit your room. Then you can rearrange it to suit your mood. But always you'll enjoy lasting, wonderful King comfort.

Your Concerto, your design. Perfect!
