

Morocco's versatility means that all the component parts in the Morocco modular system are interchangeable. Morocco can be reconfigured to turn left or right or visa versa. High or low interchangeable side arms are an option as well as additional lumbar supports. Convenient side pockets are perfect for personal storage such as remote controls and magazines.

Built around a unique steel frame, Morocco features the latest innovations in comfort and support engineering. The Postureflex® seating system is used together with KingCell® individual pocket springs for that famous King Furniture comfort. An ingenious new system allows headrests to be removed or changed without unsightly fixtures or fittings.

The special, deep feather-down cushioning responds as you move. The standard of personal comfort is exceptional. The choice of luxury in leather or fabric is yours. All pieces have tailored fully removable covers.
